

# Brain Tumor Detection Report

Uploaded Image:

**Prediction: No Tumor Detection**

**Tumor detection %: 26.62%**

## 3. Technical Information

Analysis performed using deep learning-based image classification model trained on medical imaging datasets. The model analyzes visual patterns and features to categorize the image into predefined classes.

## 4. Recommendations

1. Review this report with your healthcare provider
2. Discuss any concerns or questions about the results
3. Follow your healthcare provider's recommendations for any additional testing or monitoring

#### 4. Keep this report for your medical records

*This report is generated automatically and should be interpreted by qualified medical professionals. The analysis is based on machine learning algorithms and should be used as a supporting tool, not as a replacement for professional medical judgment. Regular medical check-ups and consultations are essential for proper healthcare management.*
